1. Time Schedule on Training Workshop of Forestry & Rural Sustainable Development

1.1 Time Schedule on Training and Exchange

Date (2009)	Time	Programs		
Aug. 31, Mon	The whole day	Participants arrival and registration on the 2 nd floor of International Exchange Center at SWFU		
September 1 Tuesday	09:30-10:00	Opening Ceremony Venue: The 2 nd floor of International Exchange and Cooperation Center at SWFU Chair: Prof. Chen Baokun (Director General of SWFU Affairs Management Committee) Opening Remarks by: <ol style="list-style-type: none"> 1. Mr. Qu Guilin, Director-General of International Cooperation Department, State Forestry Administration/ Director-General of APFNet 2. Director of Forestry Department of Yunnan Province 3. Mr. Liu Huiming, President of Southwest Forestry University 		
	10:00-10:10	Group Photo		
	10:10-10:25	Tea Break		
		Topic Presentation	Speaker/ Institute	Remarks
	10:25-10:45	Brief Introduction of APFNet	Mrs. Wang Xuehong, Director of International Affairs, APFNet .	Opening Ceremony Hall
	10:45-12:00	China's Forestry Policies and Rights Lands Reform on Collectives Forest lands	Mrs Li Shuxin, Department of Policies, Laws & Regulations of SFA	Opening Ceremony Hall
	14:30-17:00	Bio-resource and Its Development in Yunnan of China	Prof Pei Shengji, Kunming Institute of Botany of CAS	Tea break: 16:00-16:20
	17:00-17:40	Participants' meeting and requirement survey	Mr. Lai Qingkui	
	18:00-19:30	Welcome Banquet Chair: Dr. Yang Yuming, Vice President of SWFU, Director of National Plateau Wetlands Research Center Venue: The 1 st Floor of International Exchange and Cooperation Center at SWFU		

Date (2009)	Time	Programs		
September 2 Wednesday	08:30-10:00	Sustainable Forest Management: the Role of Agro-diversity	Mr. Academic Program Officer United Nations University (UNU)	Tea Break 10:00-10:20
	10:20-12:00	Review of Historical Forest Tenure Policy and Ongoing Reform of Collective Forest Tenure System in Yunnan	Prof Shen Lixin, Yunnan Academy of Forestry & SWFU	
	14:30-16:40	Review and Prospects of ICRAF's programs in Yunnan	Mrs. Su Yufang, ICRAF Yunnan Office	
	16:00-16:20	Tea Break		
	16:40-18:00	Introduction to Practice and learning on Modern Rural Development in Yunnan	Prof Kang Yunhai, Yunnan Academy of Social Science	
September 3 Thursday	08:30-11:40	Bamboo Resources and Integrated Utilization in Yunnan	Prof Yang Yuming, SWFU	Tea Break 10:00-10:20
	14:30-17:40	Forests Conflict Management in Southwest provinces of China	Prof Zhao Yaqiao, Yunnan Agriculture University	Tea Break 16:00-16:20
September 4 Friday	08:30-10:20	Theories Development and practice of Community Forestry in China		Tea Break 10:20-10:40
	10:40-12:00	Campus Tour (Key Labs, Specimen Building, Auto-greenhouse Etc.)	Mr. Lai Qingkui & Li Xianzhong	
	14:30-16:50	Social Gender and Rural Development	Prof Zhao Jie, Yunnan Academy of Social Science	Tea Break 16:00-16:20
	17:00-18:00	Weekend Tour to Tuijie Township	Mr. Lai Qingkui	
September 5-6	The whole day	Weekend Tour		
September 7 Monday	08:30-11:40	Non-timber Forest Products and Community Development in China	Prof Wang Kanglin, SWFU	Tea Break 10:00-10:20
	14:30-17:40	Livelihood and Community development: HPI (Heifer. Program. International) Practice in Yunnan	Mr. Li Zhinan	Tea Break 16:00-16:20
September 8	08:30-11:40	Review and Prospects on Cash Trees Cultivation and Industry Development in Yunnan	Prof Li Xianzhong, SWFU	Tea Break 10:00-10:20

Date (2009)	Time	Programs		
Tuesday	14:30-17:40	Community Livelihood and Co-management of Nature Reserve in Yunnan: WWF Experience and lessons	Dr. Wu Yusong, WWF Yunnan Office	Tea Break 16:00-16:20
September 9 Wednesday	08:30-11:40	Resource Insects Utilization in Yunnan	Prof Kuang Rongping, SWFU	Tea Break 10:00-10:20
	14:30-16:00	Ecotourism and Rural Development	Dr. Li Xiaolong, SWFU	Tea Break 16:00-16:20
	16:20-18:00	Protection and Utilization on Traditional custom of Nationalities in Yunnan	Mr. Chen Xueli /Mrs Li Jianqin, Yunnan University /SWFU	
September 10 Thursday	08:30-11:40	Wild Animals' Domestication and Development in Yunnan	Prof Liu Ning, SWFU	Tea Break 10:00-10:20
	14:30-17:00	Rare's Projects in China	Mrs. Li Shiyang, Rare Kunming Office	Tea Break 16:00-16:20
Sep, 11-17	Field Study Tour		Mr. Lai Qingkui, Mrs Li Jianqin	
Sep 18, Fri.	Whole day	Participants Presentation and Exchange	Mr. Lai Qingkui	Tea Break 10:00-10:20
Sep 19, Sat	8:30-11:40	Participants Presentation and Exchange	Mr. Lai Qingkui	Tea Break 10:00-10:20
	14:30-16:00	Exchange among Participants and Teachers at University	Prof Kuang Rongping	Tea Brek: 16:00-16:20
	16:20-16:50	Summary and Evaluation	Mr. Lai Qingkui	
	16:50-17:30	Award Certificate and Close Ceremony	Mr. Kuang Rongping	
	18:00-19:00	Farewell Dinner	Mr. Kuang Rongping	
Sep 20, Sun	Whole day	Participants Departure	Mr. Sun Dacheng	
Notes: 1) Meal Venue: The 1 st Floor of International Exchange Center; 2) Meal time: Breakfast 7:30-8:00, Lunch 12:00-, Dinner 18:00; 3) Training Venue: Meeting room on the 2 th floor of the Center; 4) If there are any changes, Please read announcement.				

1.2 Time Schedule for Field Tour

Date	Programs	Chair	Remarks
September 4 Friday	1) Take bus to Tuanjie township at 5 pm; 2) Dinner prepared by farmers; 3) Show and participate Bonfire party.	LQK, Sun Dacheng	Stay at township hotel
September 5 Saturday	1) Ecotourism in early morning; 2) Visit apple garden and taste apple; 3) Transfer to Yimen for wild mushroom fair; 4) Take bus from Yimen to Chuxiong and visit Yi people living township after dinner.	LQK, Sun Dacheng	Lunch at Tuanjie
September 6 Sunday	1) Chuxiong to Nanhua county, to visit wild mushroom fair and processing factory; 2) Visit bare land lease and development for cash trees and wild pigs raising in Nanhua; 3) Return Kunming and taste Over bridge rice noodle in Kunming.	LQK, Sun Dacheng	
September 11 Thursday	Take bus from Kunming to Yuanyang for terrace culture of Hani nationality	LQK, Zhang Kaiping, Mo Mingzhong	Lunch at Jiie township, stay at Yunti hotel
September 12 Friday	1) Continue to visit Hani terrace culture; 2) Travel to Jinping county, and see the National Upland Program on stopping sloping farming for Bamboo plantations and traditional bamboo shoots processing factory; 3) Bamboo plantation and chicken raising under bamboo forests.	LQK, Mao Longhua, Liu Jieyong	Lunch at Manghao hotel, stay Xilong hotel.
September 13 Saturday	1) By bus to Mengla township to see rubber plantation and maturing rubber wood processing factory; 2) Visit Dendrobium tissue cultivation and seedling planting in Wulicun village; 3) Visit oil tea seedling cultivation base; 5) Development and use of Yao People's traditional Chinese medicine.	LQK, Mao Longhua, Liu Jieyong	Stay Xilong hotel
September 14 Sunday	1) Visit demonstration site on wild medicine domestication and planting; 2) Take bus to Ma'andi for community forestry site; 3) See bare lands plantation and <i>Amomum tsao-ko</i> planting and Banana plantation in rice paddy fields; 4) Visit community forestry demonstration site, enjoy and taste dinner called "Long Street banquet" prepared by Hani people.	LQK, Mao Longhua, Liu Jieyong	Lunch at Manghao hotel; Dinner at hani village; Stay at Wutaishan hotel

September 15 Monday	Travel to Hekou to visit wild animal domestication and the frontier trade	LQK, Zhang Kaiping, Mo Mingzong	Lunch at Manghao hotel; Stay at Hekou county
September 16 Tuesday	1) Visit the Frontier trade; 2) Take bus to Pingbian for demonstration sites and base development on <i>Fibraurearacisa Pierre</i> , <i>Dendrobium</i> and <i>Taxus Chinensis</i> in Pingbian County ; 3) travel to Mengzi for 100 thousand mu of pomegranate plantation.	LQK, Zhang Kaiping, Mo Mingzong	Lunch at Pingbian county; Stay in Mengzi city
September 17 Wednesday	Travel to Scenic Landscape area: Stone Forest Landscape	LQK, Li Jianqin	

2. Member List of Working Group of the Training Workshop

Name	Sex	Position	Main work in the workshop	Email address	Contact Number
Wang xuehong	Female	Director of International Affairs of APFNet	General Coordinator, APFNet	wang_xuehong@apfnet.cn	86-10-84225577
Liu Dan	Female	International Affairs, APFNet	Coordinator of workshop, APFNet	apfnet_training@126.com	86-10-84225577
Chen Baokun	Male	Director General of SWFU Affairs	Coordinating divisions at University		86-10-3863055
Yang Yuming	Male	Vice President, SWFU	General Coordinating for workshop, SWFU	yymbam@yahoo.com.cn	86-871-3863043
Kuang Rongping	Male	Vice Director of NPWRC, SWFU	Coordinator, NPWRC & SWFU	Rongping.kuang@gmail.com	86-0-13888989576
Lai Qingkui	Male	Director of CFS, SWFU	Coordinator, workshop	qklai@china.com	86-0-13888476968
Sun Dacheng	Male	Director of NPWRC Office	Coordinator in accommodation and training affairs	kmsdcxj@sohu.com	86-0-13759104037
Li Jianqin	Female	Program officer of CFS	Participants' contact, photography	jqltc@yahoo.com.cn	86-0-13529369771
Li Shuya	Female	Program officer of NPWRC	Translator and Assistant of workshop affairs	lishuya@gmail.com	86-0-1388880917
Xu Xieqiu	Female	Program officer of NPWRC	Assistant of workshop affairs	Zoyal@sina.com.cn	86-0-13888213441
Liu Yalou	Male	MS student	Volunteer of the workshop	Achilles618@gmail.com	86-0-13888135421
Yang Lu	Male	MS student	Volunteer of the workshop	Zoe820@sina.com.cn	86-0-15925135962
Zhang Kaiping	Male	Honghe Prefecture Forestry Bureau	Coordinating for field tour in Honghe		86-873-2122819
Mo Mingzhong	Male	Honghe Prefecture Forestry Bureau	Coordinating for field tour in Honghe		86-0-13908739292
Mao Longhua	Male	Jinping County Forestry Bureau	Coordinating for field tour in Jinping		86-873-13908739212
Liu jiejiong	Male	Jinping County Forestry Bureau	Coordinating for field tour in Jinping		86-873-13388732629

3. Brief Introduction of Some Professors or Presenters of Training

Workshop

Mr. YANG Yuming, Professor & Doctor, Vice President of Southwest Forestry University (SWFU), and Director of National Plateau Wetlands Research Center (NPWRC)

Education career & Work experiences

- | | |
|-----------------|--|
| 1970.09-1978.09 | The 4 th Inventory Brigade of the Southwest Forest Surveying & Design (presently the Yunnan Provincial Institute for Forest Inventory, Planning and Design) affiliated to the Ministry of Forestry. |
| 1978.09-1982.07 | B.S. in biology of Yunnan Teachers' University, Kunming Yunnan Province. |
| 1982.07-1984.10 | Southwest Forestry University |
| 1984.10-1985.09 | Yunnan Normal University |
| 1985.09-1988.07 | M.S. of Agriculture, majoring in forest botany at Southwest Forestry University (Advisor: Prof. Xue Jiru). |
| 1988.07 to date | Southwest Forestry University |
| 2006.01-2007.12 | Policy Research Office of the People's Government of Yunnan Province |
| 2008 to date | Director of the National Plate Wetlands Research Center |
| 1995.03-1996.02 | One year visiting scholar at the College of Forestry, The University of the Philippines at Los Banos for research on the cultivation and use of tropical bamboo species and rattans. |
| 2002.02-2003.02 | One year visiting scholar to the Crop and Food Research Institute, New Zealand, specializing on management and assessment of environmental risks |
| 2000.09-2003.06 | PhD. in environment sciences and engineering of Qinghua University, Beijing, P. R. China (Advisor: Hao Jiming). |
| 1989.10 | Lecturer at SW Forestry University |
| 1992.01 | Special promotion to associate professor as one of the 100 elite young research scientists of Yunnan Province. Appointed the deputy director of the Department of Forestry, SWFU. |
| 1994.07 | Director of the Department of Forestry, SWFU |
| 1996.03 | Assistant to the President of SWFU, and director of the Department of Forestry. |
| 1997.11 to date | Promoted to be professor, and vice president of SWFU;
Director of the Institute of Bamboo and Rattan Research, SWFU |

Mrs. SU, Yufang, Project coordinator, World Agroforestry Centre, China Program

Address

World Agroforestry Centre, ICRAF-China
Centre for Mountain Ecosystem Studies
c.o. Kunming Institute of Botany 3/F Library Building
Heilongtan, Kunming, 650204, China

Email: suyufang@mail.kib.ac.cn; suyufang@hotmail.com

Education

1986 – 1990 Bachelor of Science in Geography, Shanghai Normal University, China.
1999 – 2001 Master of Arts in Sustainable Development, Regional Center for Social Sciences and Sustainable Development, Chiang Mai University, Thailand.
2005 - 2006 Simon Fraser University, Canada.

Professional Experience

Yunnan Academy of Social Sciences (YASS), China

Human Resources Coordinator, 1990 – 1994

- Managed various employment procedures for incoming YASS researchers

Institute of Rural Economics, Yunnan Academy of Social Sciences, China

Assistant Professor, 1995 – 1999

- Researcher in strategic study on Alleviating Poverty and Enriching Poor Ethnic Minorities of Yunnan Province, funded by the Chinese Social Science Foundation
- Researcher in Yunnan upland integrated development project, funded by the Ford Foundation
- Researcher in Program on the Sustainable Management of Upland Tropical Ecosystems in Northern Southeast Asia and Southwest China
- Researcher in the Yunnan Social Forestry Project, funded by the Ford Foundation
- Principal researcher in study on Forest Use Rights Security as a Prerequisite for Success of Afforestation Activities: A case study of compensatory transfers of use rights for barren land in Banliu Administrative Village, Yaoan County
- Principal researcher in a Survey and Study of Forestland Tenure Security and Forestry Development in Yunnan, funded by the Ford Foundation
- Principal researcher in a Study of Forest Use Rights and Sustainable Management of Forestry Resources in Southwest China, funded by the Rockefeller Brothers Funds
- Principal researcher in CIFOR/IFAD Project on Making Devolution Policies more Effective: A Case Study in Jinggu, funded by IFAD through CIFOR

Center for Community Development Studies, China & YASS

Project Officer, 2000 – 2002

- Principal researcher in study on Forest Conflict Management in Southwest China, funded by the Ford Foundation
- Principal researcher in study on Developing an Effective Legal and Policy Framework for Non-Arable Land in the P. R. China, funded by the Rockefeller Brothers Fund
- Principal researcher in study on Building Local Capacity for Community Participation in China: A case study on capacity building within the community, funded by DFID

World Agroforestry Centre (ICRAF), Yunnan, China

Program Manager, 2002 – 2005

- Assisted in establishing and coordinating project activities for regional ICRAF project office

- Negotiated institutional agreements between ICRAF and research and government organizations in Yunnan
- Key researcher in a study on the effects of timber trade between China-Myanmar on local livelihoods
- Leading a project exploring the effects of changing local institutions on natural resource management
- Collaborated and developed project proposals, activities and research with partners.
- Manager for “Facilitating Community-Driven Sustainable Development (FCDS) in the Uplands of Southwest China” project

Consultant & Program Manager, 2007-2008

- Leading & key researcher in case studies on collective forestry tenure reform in Southwest China.
- working together in a team supervising the project assistant, technician and local consultants within the EU project of “Rural Energy Production from Bioenergy Projects: Providing regulatory and impact assessment frameworks, furthering sustainable biomass production policies and reducing associated risks (RE-Impact)”.
- Supporting ongoing R&D programs within the overall portfolio of ICRAF-China, and playing a key role in providing support and leadership in the development of projects. This includes, planning, developing and implementing suitable R&D activities and work plans.

Project coordinator, 2008-

- Key ongoing/conducted research projects:
- Team leader & key researcher in case studies on Local adaptation strategies to climate induced water stress and hazards in Yunnan, Southwest China for “Too much and too little water – adaptation strategies to climate induced water stress and hazards in the greater Himalayan region” funded by the Swedish International Development Cooperation Agency (Sida).
- “Rural Energy Production from Bioenergy Projects: Providing regulatory and impact assessment frame-works, furthering sustainable biomass production policies and reducing associated risks (RE-Impact)” funded by EU AIDCO.

Mr. KANG Yunhai, Director & professor in IE of Yunnan Academic of Social Sciences

PERSONAL ADDRESS: No.577 Huanchengxilu, Kunming City 650034
The People's republic of China
Tel: (86-871)4154722; Fax: (86-871)4142394
MBP: 13508719899
E-mail: yunhaikang@yahoo.com.cn

EDUCATION: PHD in rural economy, China Agriculture University, Beijing, 2004-2007.

Master Degree in Agricultural Systems Management, Chiang Mai University, Thailand, 1992-95.

Bachelor in Agronomy, Rural Economy Management, Huazhong Agriculture University, Wuhan City, 1982-86

OTHER TRAINING: "Participatory Tools & and Techniques in Community Forestry Planning and Extension Course", Nepal, 1996 (1 month).

"Male Gender Training Course for the Capacity Building and Rural Development Program: Women and Men Working Together" sponsored by Winrock International China, Kunming, 2002 (7 Days).

LANGUAGE & DEGREE OF PROFICIENCY Chinese: Excellent (mother tongue)
English: reading, listening, speaking and writing- fluent
Thai - speaking-conversational

COUNTRIES OF WORK EXPERIENCE: China, Thailand, Nepal, Vietnam, Laos, Cambodia

KEY QUALIFICATIONS

Yunhai Kang has worked and studied on community-based resource management and community development for more than 15 years in Yunnan Province. His experience includes work for international NGOs, the EU, ADB, UNDP, The Ford Foundation, DFID, WWF, Yunnan Governmental institutions and private sector assignments. His Master degree at MCC, Chiang Mai University of Thailand, focuses on agricultural system management and community development. He is fluent in English and has in -depth knowledge of Community-based resource sustainable development in Yunnan Province. He has Traveled and worked in china, Thailand, UAS, Nepal, Vietnam, Laos, Cambodia and etc.

Mr. LAI Qingkui, professor & Director of Center for Community Forestry Studies at Southwest Forestry University(SWFU).

His major is community development and participatory forest resources management. He got his master degree at Central South Forestry University during 1986-1989 majored on forest cultivation and soil and water conservation. During 1992-1992, he got Winrock Scholarship, studied on Social Forestry and Environment Management at University of the Philippines at Los Banos. Besides teaching courses of Community Forestry, Agroforestry, natural resources conflict management and co-management, RRA and PRA for Bachelor and master degree studies at University, he is also engaged in field survey, research and consultancy activities.

Up to now, he has being participated and been in charged of over 10 programs, of which majority is on community based forest or nature reserve management and local staff capacity building, such as “Community Forestry Education and Training for Local Staff”, “Community Development and Participatory Nature Reserve Management”, “Devolution and Forest Management”, “Pioneering and Demonstration on Community Forestry”, “Community Poverty and Natural Resources Distribution”. All these were supported by International Foundations or Organizations such as Ford Foundation, CIFOR, ICIMOD. During the last five years, invited by World Bank, UNDP, FAO etc., he provided advices for many international programs such as “GEF Bio-diversity Conservation and Community Development”, GEF China’s Wetland Conservation and Community Development”, Sino-Dutch Forest Conservation and Community Development”, “EU-China Natural Forests Management” and so on. Up to now, he wrote and published over 30 theses in different national and international formal publications. He was in chief and published eight books or textbooks. Nowadays, he is in charge of program on community forestry demonstration supported by Ford Foundation.

Mr. Zhao Yaqiao, Professor and Dean of Institute of Economy and Management of Yunnan Agriculture University.

Education and Academic Titles

Date	University	Degree	Major	Minor
Sep. 1984 - Jul. 1988	Yunnan University	B. A.	Economics	
May 1992 - Jun. 1994	Philippines University	M. S.	Social Forestry	Development & Management
Oct. 2005 - Now	Chiang Mai University, Thailand	Ph. D.	Sustainable Development	

Since 1988, Mr. Zhao Yaqiao is a permanent staff member of Yunnan Academy of Social Sciences.

Since Aug. 1999, Mr. Zhao Yaqiao is the deputy director of the Center for Community Development Studies in Yunnan province.

Since 2001, Mr. Zhao Yaqiao is the director of Center for Community Development Studies in Yunnan province.

Since 2006, Mr. Zhao Yaqiao is the deputy director of Rural Development Institute in Yunnan Academy of Social Sciences, Yunnan Province.

Professional experience:

Nov. 1999 – 2004 Organize and lead a research project named “The forest resources conflict management in South-west China”, funded by Ford Foundation Beijing offices, participated by nearly 17 institutes or government agencies from Yunnan, Sichuan and Guizhou province.

Feb. 2000 – 2004 Organize a demonstration project called “The demonstration of sustainable forestry resources management in Yunnan province”, work with Yunnan Forestry Department and RECOFTC (Thailand).

Aug. 2000 Work as the Participatory Land Use Planning (PLUP) expert for the feasibility study for Sino-German afforestation project in Anhui province.

Apr. 2001 Work as the Participatory Land Use Planning (PLUP) expert for the feasibility study for Sino-German afforestation project in Gansu province.

Apr. 2002 Work as the Participatory Land Use Planning (PLUP) expert for the feasibility study for Sino-German afforestation project in Hubei province.

Jun. 2004 Conduct a research about the linkage between poverty alleviation and environment in Yunnan province, supported by WWF Beijing.

Oct. 2004 Conduct a research about the community driven natural reserve in Yunnan province, support by WWF Beijing.

- Jan. 2004 – 2006 Coordinate a project called “Develop the sustainable forestry resource management principles, criterials and indicators at village level” with Yunnan Forestry Department, supported by Ford Foundation Beijing Office.
- Feb. 2005 Response for the research of the migration in poverty alleviation projects in Yunnan province, to see whether migration is the effective strategy for poverty alleviation in Yunnan province, and how to reach the sustainable objective for migration.
- May-Oct. 2005 Organize the research about the collective forestry tenure reform in Fujian, Zhejiang, Jiangxi and Yunnan Province, support by Ford Foundation Beijing Office.
- Jun. 2005-Jan. Lead a case study about the collective forestry tenure reform in Yunnan
2007 Province, supported by FAO.
- Aug. 2006-Apr. Lead an assessment about the collective forestry tenure reform in Yunan,
2008 Sichuan and Guizhou province.

Up to now, over 40 papers or theses have being published in different news papers and technical journals.

Mrs. Zhao Jie

Mr. LI Xianzhong, Professor and Director, Trees cultivation division of Institute of Natural Resources at SWFU.

Education: In 1998, I earned a Master's degree in Agriculture at Higher Agriculture University, Bulgaria

Occupation:

Professor at Community Forestry Development Center of Southwest Forestry College; Fruit trees cultivation; A member of Yunnan PRA Network.

Work experiences:

- 1) Upland watershed management through community forestry in Qiaojia County yunnan Province ,China 1992-1994
- 2)Farmer Field School on Economic Forestry Co-management in Zanyi County Yunnan Province 1999-2001
- 3) Community Capacity Building in Jinping County and Farmer Field School in Lushui County are on-going project.
- 4) Participatory training workshop 8 times.

Main publications:

- 1) 《Community Forestry》 .Yunnan Science and Technology Press,1994
- 2) 《Policies, Human Resources and Participatory Forestry Management》 .Yunnan Science and Technology Press,2001
- 3) 《Extension of Science and Technology on Forestry》 Yunnan Science and Technology Press,2005

Mrs. WU Yusong, Director of WWF Yunnan Office

Education Background

1986-1990 Yunnan Normal University, BA History

1994-1997 Yunnan University, Master of Ethnology

Work Resume

1990-1997

Yunnan Academy of Social Science, mainly study local history records of minority nationality in Yunnan.

1997-2000

Program officer of Oxfam Hong Kong takes charge of poverty alleviation and community development program in Guangxi. Be responsible for microfinance, agriculture, livestock breeding and planning, management and training of community forestry. Simultaneously be responsible to training of participatory rural operating methods and social gender.

2000-Now

Project lead of WWF-Yunnan Baimaxueshan Program, taking charge of planning, implementation and training to participatory reserve management of ICDP(Integrated Conservation and Development Program)

Program Consultation

In 1998, be the consultancy expert of community development and forest conservation program of China-Holland government cooperation project to assist in program design and implementer training.

In 1999, be the consultancy expert of GTZ-Jiangxi-Protection and Conservation of Mountains, Rivers and Lake Program, taking charge in evaluation and upfront design of micro finance program

In 2000, be an independent consultancy expert, participating in implementation achievements assessment of first phase of GEF(Global Environment Foundation) in China.

In 2000, participate in compiling textbooks about case study and training of forest resource conflict management program in three provinces of southwestern China sponsored by Ford Foundation.

Mr KUANG, Rongping, (rongping.kuang@gmail.com), now working as deputy director of Natural Plateau Wetlands Research Center, and also as professor respectively at Southwest Forestry University and Life Sciences College Yunnan University.

Before 2000, my research work got involved in insect ecology. From 1996 on, I has ever worked as professor and deputy director of Kunming Institute of Zoology Chinese Academy of Sciences on pest insect ecology and integrated pest management.

After the year 2000, my concern focused on harms and risks of chemical pesticides to environment, biodiversity and human health, and sustainable alternatives to chemical pest control. In particular, I spent much time with building community capacity and community based alternative pest management system. In order to achieve the long term mission of pesticide reduction, my project team has been collaborating with organizations and institutions from Malaysia, Philippines, Vietnam, Thailand, Cambodia, Australia, Japan, USA, Sweden, The Netherlands, Germany and France, as well as from China on pesticide risk awareness raising, environmental health, participatory alternatives development, GMOs ecological impacts and so on. In the meantime I am also coordinator of Agriculture & Biodiversity group under the framework of China-Europe Forum, which aims to promote dialogue and exchange between China and Europe on sustainable agricultural area.

More recently, I have been paying some attention to impacts of climate changes on agriculture and pest insect infestation like rice planthopper. Besides research work, I am also very much concerned about policy development related to highly hazardous pesticides like paraquat and endosulfan.

Mrs LI Shiyang, Director of Rare's Regional Office in Kunming

Shiyang's extensive experience in rural development and grassroots community governance makes her a great asset to Rare. Overseeing Rare's newest regional office at Southwest Forestry University in Kunming, Shiyang Li manages our Pride program in China. Prior to joining Rare, Shiyang worked on China issues at the New York based consulting firm of Urbach Hacker and Young Advisors, wrote for Global Policy Innovations Program at the Carnegie Council, and played a key role in the EU-China Training Programme on Village Governance. Shiyang holds a Bachelor's and Master's degree in Sociology from Renmin University in Beijing, and a second Master's in East Asian Regional Studies from Columbia University.

Mr. CHEN Xueli, Associate Professor of Yunnan University

PERSONAL DETAILS:

Place of birth: Yunnan, China
Contact address: Anthropology Museum of Yunnan University
No.52 Cuihu North Road, Kunming, Yunnan,
People's Republic of China, 650091.
E-mail: cxlxsb@yahoo.com.cn
Tel: +(86) 871 5031607
Mobile: +(86) 13759152771

PROFESSIONAL EXPERIENCE:

2007 ~ **General Manager**, Academy of Chinese Visual Anthropology.
2004 - 2007 **Supervisor**, Visual Anthropology Studio, Anthropology Museum, Yunnan University.
2001- 2004 **Lecturer**, Anthropology Department, Yunnan University.

Note on fieldwork:

The main subjects of investigation for my fieldwork towards the papers and films above include minority nationalities such as the Zhuang, Dai, Azhe, Miao and Yi. My major research has focused on the Sani nationality & one branch of the Yi nationality.

CONFERENCES, PROJECTS & OTHER ACADEMIC EXPERIENCE:

- 2009 Administrator in charge of the “Nuohei Ashima Culture Class Project” at Danuohei village, Stone Forest, Yunnan, China. This project aimed at transmitting the traditional knowledge from old generation to young generation.
- 2009 As a participant of the Training Workshop on Intangible Cultural Heritage and Museums, Asian Academy for Heritage Management 2009 Field School, Lamphun, Thailand
- 2009 As a participant of the Training Workshop on global technology and Higher Education, Hong Kong City University.
- 2006 Attended the project “Land Use Transition and Human Health in Eastern Himalaya: An Adaptive Ecosystem Approach” which was sponsored by IDRC (International Development Research Center), Yuanmou County, Yunnan, China.

Mrs. LI Jianqin, Associate Professor of Southwest Forestry University

PERSONAL INFORMATION

Work place: Center for Community Forestry Study, Southwest University,
Kunming, China.
Contact address: Center for Community Forestry Study, Southwest University,
Bailongsi, Kunming, China, 650224.

PROFESSIONAL FIELD

Research focus on ethno-ecology, social forestry and so on. The purpose of those studies is to find out the relationship between people and nature resources, people and environment in study area, investigate the changing process of the ecological environment and traditional culture's regulation in it, and get the sustainable way which can promote community development and environment protection at the same time.

Dr. LIU Ning, professor and vice dean of Faculty of Biological Conservation, Southwest Forestry University.

1. Field of specialization: Forest resource management, biodiversity conservation & assessment, wetland study, wildlife management and environment impact assessment.
2. Education: Bachelor degree of science, Department of biology, of Yunnan Normal University (Sept 1978-.July 1982)
Master of Forestry, Department of forest and environment resources management, University of the Philippines Los Banos (November 1999- October 2000).
Ph. D. of renewable nature resource management, University of the Philippines Los Banos (November 2000- October 2003)
3. Other training
Advanced English training course, Nanjing Forestry University (Sept 1989-July 1990);
Satisfactorily fulfilled the requirements of the intensive course in English, Art and Language program and special studies College of Arts and Sciences, University of the Philippines Los Banos, February 2000.
4. Language of proficiency degree: Chinese, native language. English, working language
5. Membership in professional organization
Member, of Zoology Institute, P. R. China;
Member, Entomology Institute, P. R. China;
Council, member, National Reserve Association of Yunnan Province
6. Countries of work: P. R. China, Philippines
7. Employment record:
From May 2003 to now, professor and vice dean of faculty of biodiversity conservation.
From March of 2002 until April of 2003, work for TNC scientist and conservation manager.
From May 1985 to October 1999, Southwest Forestry College, as associate professor then professor and vice-dean of the Faculty of conservation biology

5. Background Note of Training Workshop of Forestry and Rural Sustainable Development

5.1 Background

Forests provide a range of economic, social and environmental benefits, such as climate change mitigation, water and soil conservation, livelihood of local communities and poverty alleviation. The Asian-Pacific realm countries, particularly China and neighboring countries are mountainous. The residents are closely tied with their regional communities on forest resources. The communities' development and livelihood of the residents mainly rely on the forests. According to the research report of FAO, the income of these mountainous residents heavily relies on product harvested from the forests, although they are seasonal and subsistent. These products also help to resolve the needs from occasions of passage of life and hardship occurrence as well as increase the income.

With response to the Leaders' Declaration on Climate Change, Energy Security and Clean Development at the 15th APEC Economic Leaders' Meeting in September 2007 in Sydney, APFNet (Asia- Pacific Network for Sustainable Forest Management and Rehabilitation) Interim Secretariat was established aims to enhance capacity building and strengthen information sharing on sustainable forest management in the forestry sectors in the region.

The planning and management of forest resources and its relationship with the rural community is these countries' key element of regional development. The China's experiences of research and experiment on the correlation of community forest management and mountainous resident's livelihood has some measure of success. This calls an international cooperative means of bordering countries around this region to share the results of our experiences. This training workshop is an attempt of inviting and starting an exchange of wisdoms, successes and failures of all our neighboring nations. One of the hoped for results is to forge a means for forestry and community development of this mountainous border region.

5.2 The objectives

The workshop brings together experience, knowledge and lessons on forestry and rural sustainable development and related issues. Emphasis is on capacity development for forest practitioners across the region. Participants will be exposed to the following topics:

- Share the Chinese experience in reformation of forestry rights and exploitation of the mountain region.
- Raise the ability of the participants to improve regional forestry development of these communities.
- Force the participation of all residents in these regions.
- Reclaim of regional forestry and sustainable forestry management.

The combination of good practice by way of lectures, open and frank discussions and field trips offers a platform for sharing experiences and lessons learned on FRSD, as well as an opportunity to identify actual needs for future capacity development, and priorities that APFNet will need to facilitate and address in the future.

5.3 Approaches/Activities

The 20 days workshop consists of three parts: 1) A series of presentations involving the theory, development and practice of social forestry, community development and forestry conflict management, regional residents and forestry policy-making, the development of Chinese forestry and rural areas, cases on the development of forestry and rural areas, and each presentation will be followed by a discussion. 2) A 7 days field excursion focuses on the management and development of the integrated forest resource utilization and mountain development. The main topics include wild mushroom resources, the utilization of bamboo and NTFP, planting and raising animals under forests. 3) Two days' intercommunication among participants. Participants from each country will be required to prepare one country paper or their own study report with perspectives of FRSD which will be the inputs to the APFNet's strategies and work programme in the future. APFNet will provide a template of the country profile after receiving the registration form.

5.4 Eligible participants

Officials engaged in forestry, poverty reduction, natural resources management, natural environment protection and related study fields in developing countries in Southeast Asia and South Asia, with fluency in English. One or two person(s) is/are allocated for each country. If two persons are from one country, one of them must be female.

5.5 Training Venue and local weather

Training venue will be at Southwest Forestry University (NO.274, Bailong temple, Kunming, Yunnan Province, P. R. China, Postcode:650224; <http://www.swfc.edu.cn>). Field trip will be visiting to Chuxiong and Honghe prefectures, the central and southeastern part of Yunnan Province.

6. Brief Introduction of Kunming City

6.1 Brief Introduction

Kunming, capital of Yunnan Province, with a history of more than 2400 years, owes its importance to the fact that it was the gateway to the celebrated Silk Road that facilitated trade with Tibet, Sichuan, Myanmar and India. Today the city is the political, economical and cultural center of Yunnan and the provincial center for transport, science and technology and consequently has become the most popular center for tourism in Southwest China.

Kunming enjoys a pleasant climate and does its best to live up to its title of 'the City of Eternal Spring'. Whenever you are planning to go, the temperature is always pleasant. With its convenient transport links in and out of the city, Kunming welcomes and sees off tens of thousands of tourists every day.

Kunming is the focal point of Yunnan minority culture. Some 26 ethnic minorities such as Yi, Bai, Miao, Dai, Hani and more inhabit the region. Each group has its own featured festivals such as the Torch festival of Yi people, the Golden Temple Fair and so on. The hugely successful 1999 International Horticultural Exposition enhanced Kunming's influence in the world resulting in a snowball effect upon tourism as more and more foreigners come to discover this enchanting part of China.

Its alluring highland scenery, bewitching karst landform, varied and exotic habitats and customs and places of historical interest can be found at major scenic spots such as Dianchi Lake, Stone Forest, the Village of Ethnic Culture, Grand View Pavilion, etc.

Kunming is also renowned for many delicious local dishes; the most famous ones are Across Bridge Rice Noodle and Xuanwei Ham. You can enjoy them both at local famous restaurants or the night market. In the night markets you will find many pubs, bars and cafes that serve good quality meals.

6.2 Kunming Climate

Kunming city is called "The City of Spring", with the average temperature is 18°C-26 °C during the workshop. In the morning and evening, the temperature is little lower. During the field trip, the temperature is much higher than Kunming because most visited places are located in southern part of Kunming.

7. Overview of Southwest Forestry University

Southwest Forestry University (SWFU) was initially founded as the Department of Forestry in Yunnan University in 1939. Following the establishment and merger of Kunming College of Agriculture and Forestry and Yunnan Forestry College, Southwest Forestry College was founded as a separate institution in 1978 and became an affiliate of China's Ministry of Forestry. During the general reform of China's higher education institutions in 2000, SWFU's affiliation to the State Forestry Administration was transferred to "an institution for joint development but predominantly managed by the Yunnan Provincial Government".

During 70 years of cumulative education experiences and 30 years of independent operation, the university has become the only institution of higher learning that specializes in forestry in the Western Region of China. Its campus is located in Kunming City in Yunnan Province. The university has been a recipient of the awards for "University of Excellence in Campus Greening in Yunnan", "National Advanced Greening Collective Institute", and National Model Institute for Greening Campaign".

SWFU's fields of study are mainly centered on disciplines relevant to forestry, with special features and excellence in environmental and biological subjects that encompass multidisciplinary degree programs in agriculture, science, engineering, law, arts and management. Its multi-tier education programs include mainly Bachelor's and Master's degrees, as well as continuing education programs. Also included are higher professional and vocational education programs, together with special programs for international students. The university's mission is to serve the economic and social development of the Southwest frontier regions of China by focusing on the building of a sound ecological environment and the development of the forestry sector in the region. SWFU is one of the first universities accredited for conferring a Master's Degree in 1982 since China adopted the reform and opening policies, and has been ratified as a university selected to develop PhD programs in 2009. Presently the university offers 28 Master's and 48 Bachelors' Degree programs.

In total, the university has nine faculties and five departments which have enrolled 12,463 fulltime students, including 817 students registered for Master's Degree programs and 11,155 for Bachelor's Degree programs. The university has 1,027 faculty members, including 739 instructors of whom 114 are professors, 282 associate professors, 10 mentors for PhD candidates and the rest are adjunct faculty members.

The university has developed an effective system of facilities and laboratories for its education and research programs, including 18 laboratories certified for basic and major courses in Yunnan province and 65 off-campus sites for field practicum. Amongst a large number of research institutes and centers, the university has developed one national-level research institute, one key laboratory of the Ministry of Education, one key laboratory of the State Forestry Administration (SFA), one key laboratory of Yunnan Province, three key laboratories for universities in Yunnan, two engineering (technical) research centers for universities in Yunnan, three model experiment centers for universities in Yunnan, one model laboratory for universities in Yunnan, and one training base for innovative scholars of Yunnan.

The teaching and research competency at SWFU pioneers its peer university Southwest Forestry University research, biodiversity and nature conservation, silviculture, forest management, forest protection, bamboo research, and wood science and technology. Unique regional features have developed in the fields of landscape gardening and ecotourism. Outstanding achievements were made in research on birds, fishes and ants.

The research funds received by the university in recent five years totals 160 million Chinese yuan. More than 3,000 papers, 110 monographs and six translated monographs have been published.

Our campus occupies 80 hectares and has an arboretum of 46.2 ha and floor space of 488,600 m². The university library stocks about 1.12 million books, and more than 226,000 volumes of electronic magazines and books that are shared on a campus network.

The university has established cooperative and exchange ties with universities and research institutes in the United States, Canada, France, Germany, Netherlands, Australia, New Zealand, Japan, Thailand, Philippines and Vietnam for joint research and the training of graduate and undergraduate students. Based on reciprocal credit transferrable programs, SWFU has started to develop joint-education programs for undergraduate students based on “2+2” model, as well as exchanging graduate students for field practicum which are mandatory for thesis research with universities in the US, Canada, Netherlands, Thailand and Poland. Joint research and training programs have been conducted in cooperation with the World Wildlife Fund (WWF), the Global Environment Facility (GEF), The Nature Conservancy (TNC), the MacArthur Foundation and the Ford Foundation (FF).
